

# UI programming on the web

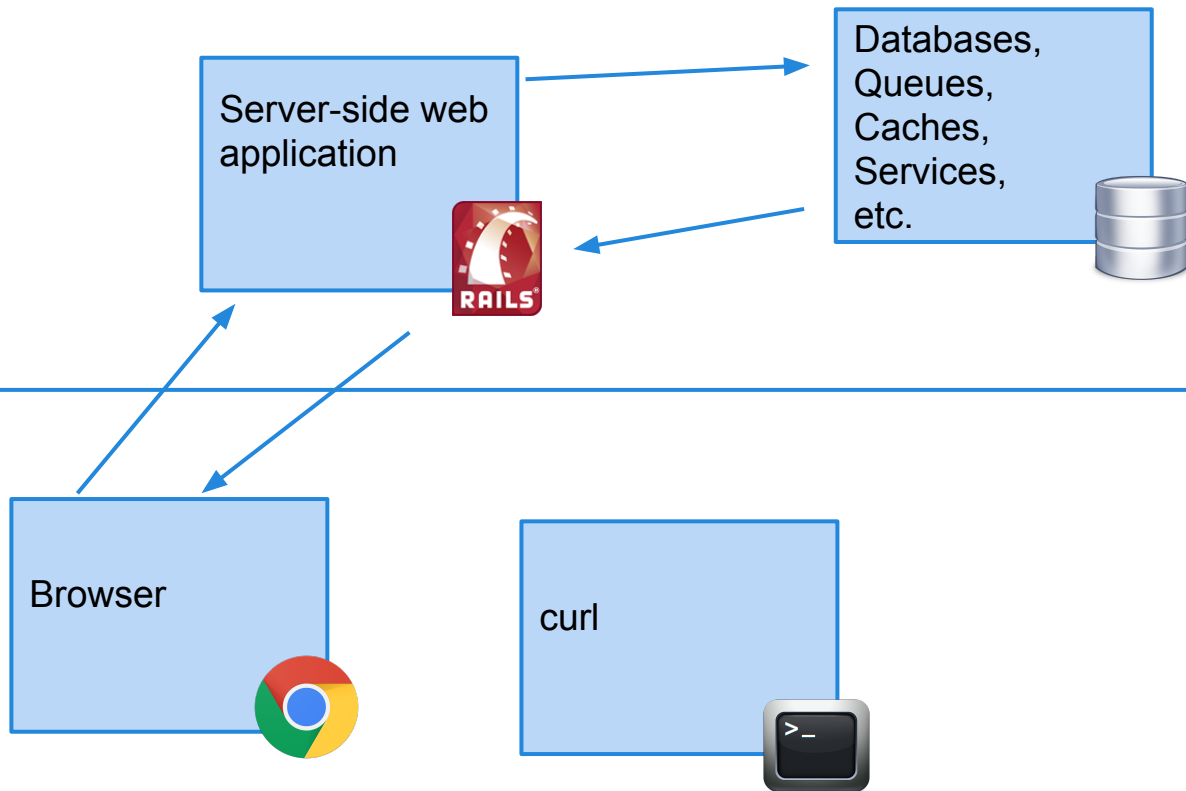

## Project time!

Drexel University

2/18/15

@krob

# HTTP, Servers and Clients

# Browsers - HTML, CSS, JavaScript

HTML is for content

CSS is for styling

JavaScript is for browser programs

# Project!

Motivation

Concept

Approach

# Approach

Feedback

Context

“Correctness” and cost of mistakes

# Plan for prototyping

HTML

CSS for styling

JavaScript for interactivity

Minimal server to show end-to-end concept

# Development environment

node.js server

plain HTML, plain CSS

browserify and CommonJS modules

# What should we build first?

List of songs

Move list to JS

Server API

Add a new song
